Programme for Improved Nutrition in Sindh
In support of the Accelerated Action Plan, Government of Sindh

CLEW DIRECTORY
Acknowledgements

We would like to extend our gratitude to Government of Sindh's Accelerated Action Plan for the Reduction of Stunting and Malnutrition in Sindh and the Ministry of Livestock and Fisheries. We would especially like to thank the Research and Training Institute for Livestock Development, Tando Muhammad Khan for hosting and training two batches over the course of two months each.

The cadre of the CLEWs would also not be possible without the efforts of the Community Institutions and our partner RSPs, NRSP, SRSO and TRDP working tirelessly as part of the Programme for Improved Nutrition in Sindh. Thank you for your unwavering support.

This CLEW directory lists Community Livestock Extension Workers (CLEWs) trained under the European Union-funded Programme for Improved Nutrition in Sindh. They are listed district-wise, with a total of 191 CLEWs with their contact and catchment details.

Introduction

Community Livestock Extension Workers are trained individuals who will ensure overall livestock development at local level by conducting outreach visits to provide services to communities under the Programme for Improved Nutrition in Sindh.

CLEWs nominated by LSOs must be a member of a household that is a part of a community organization and should at least have a qualification up to matriculation. He should also have a background and some experience in livestock management and is interested in taking it up as an enterprise. He must also own a motorcycle to travel from village to village for delivery of services.

Upon completing an extensive two-month long training programme at the Research and Training Institute, Tando Muhammed Khan, the 191 CLEWs are now members of the Local Support Organisation (LSOs) in their catchment UC to whom they cater to and provide the necessary inputs to administer routine livestock vaccination, undertake awareness raising sessions with the community as well as carry out artificial insemination.

A Community Livestock Extension Worker’s responsibilities include:

- Develop Union Council-level action plan to provide optimal coverage and set charges for the different services they provide
- Participate in RSP-level monthly meeting where the CLEW is to share their progress of that month and any challenges faced to receive the support needed for resolution
- Conduct monthly visits to vaccinate livestock in order to immunize them well in time of seasonal and aggressive strains
- Participate in monthly meetings with concerned VOs and LSOs where CLEWs will share their progress and plan for the coming month
- Conduct outreach visits as per the action plan shared with their LSO, identify livestock suffering from diseases and carry out first aid, drenching, vaccination, technical advice and other basic livestock management services during the visit
• Refer more serious cases of sick animals to the Government-led veterinary hospitals for further treatment

• Organize Livestock Vaccination Camps to provide livestock extension services to communities

• Develop close coordination with the District Government Livestock Department and regularly source vaccines and other medicines from them. In case of shortages, CLEWs will procure material from local private veterinary firms dealing in vaccines and other veterinary medicines

• Discuss the challenges faced by CLEWs with LSOs and the District Livestock Department during monthly meetings, especially regarding the supply of vaccinations and medicines and any outbreak of livestock diseases

• Coordinate with RSP-supported agricultural entrepreneurs, poultry entrepreneurs and community resource persons (CRPs) for effective service delivery

• Participate in capacity building opportunities organized by the concerned RSP

• CRPs in their respective LSOs will organize monthly sessions at Farmer Field Schools in the villages with groups of 15-20 participants to create demand for livestock services

• To promote an effective breeding system, CLEWs will also carry out artificial insemination with willing livestock owners using kits provided to them with improved livestock semen procured from the District Livestock Department

In each of the CLEW respective LSOs, there are around 10 Farmer Field Schools (FFS) where they will be responsible for organizing monthly sessions with 15-20 participants. CLEWs will cover the following topics during the sessions:

1. Effective livestock management
2. Fodder preparation and management and follow-up of previous session
3. Livestock breed management including improvements through artificial insemination and follow-up of previous session
4. Disease control and timely immunization and follow-up of previous session
5. Entrepreneurship by livestock owners to ensure continued supply of dairy to communities and follow-up of previous sessions

The Government of Sindh (GoS) through the Planning and Development Department (PDD) is implementing a six-year, from 2016 to 2021, multi-sectoral Accelerated Action Plan for Reduction of Stunting and Malnutrition in Sindh – Sehatmand Sindh, with the objective of reducing the stunting rate from the existing 48% to 30% in first five years (by 2021) and to 15% by 2026 by increasing and expanding coverage of multi-sectoral interventions.

In line with the Plan’s focus, the European Union, under the EU Commission Action Plan on Nutrition (2014), is supporting the Sindh Government through the comprehensive Programme for Improved Nutrition in Sindh (PINS).

PINS aims to sustainably improve the nutritional status of children under five (U5) and of pregnant and lactating women (PLW) in Sindh through nutrition-specific and nutrition-sensitive interventions while capacitating the Government of Sindh so that it may efficiently implement its multi-sectoral nutrition policy.

PINS comprises of three components – Technical Assistance, Nutrition-specific and Nutrition-sensitive. RSPN is leading the Nutrition-sensitive (PINS 3) component which focuses on reducing water-borne diseases and improving food diversity through disaster-resilient WASH infrastructures and sustainable food production systems in rural areas of Sindh. It is working with four partners: Action Against Hunger (ACF), National Rural Support Programme (NRSP), Sindh Rural Support Organisation (SRSO) and Thardeep Rural Development Programme (TRDP).

More information about European Union is available on:
