Dear Readers!

We hope you are keeping healthy and safe during this difficult time.

As the outbreak of the COVID-19 novel coronavirus continues throughout the country, the women community institutions fostered under the EU-funded SUCCESS programme have taken the lead in protecting Sindh’s rural communities from the negative impacts of this pandemic.

Community Institutions (CIs) and Community Resource Persons (CRPs) trained by SUCCESS are taking self-initiative and linking up with RSPs, local government authorities and other stakeholders to conduct a diverse range of response and relief initiatives. These activities are covered daily in our social media.

Read all about them here.

With Warm Wishes,
The RSPN SUCCESS Team.
