

Rural Communities in the Fight Against **COVID-19**

Strengthening the Citizen-State Relationship

**Update on RSP Collaboration with 66 District Administrations
(1500 Union Councils) (Community Mobilisation for TTQ)**

24 August, 2020

4th July 2020: Prime Minister Imran Khan awards two women activists from the National Rural Support Programme for outstanding work in rural ICT against COVID-19, marking 100 days of the National Command and Operations Centre (NCOC).

Shabana and Shagufta are the two activists trained by NRSP and the ICT Health Department under an MOU between District Administration ICT and NRSP. The activists spread awareness about COVID-19 in their villages and will help government in contact tracing and identifying suspected cases. Shabana and Shagufta belong to Community Local Support Organisation (LSO) Chirah.

Scope of NCOC collaboration with RSPs

Pakistan's first, organised community-led response in rural areas to the **COVID-19 emergency**

This unique public-private partnership between **the GOP and community Local Support Organisations (LSOs)** created by RSPs, is strengthening citizen-state links. LSOs are union council-level community institutions

In **1500** union councils of 66 districts seven RSPs are entering into agreements with district administrations as a public service, linking LSOs to government to battle COVID-19;

The work is happening in **all provinces, AJK and GB**, with the Health Department training community activists (women and men) in awareness about COVID-19, related preventive measures, contact tracing and reporting of suspicious cases (TTQ) to the Health Department;

About **20 million** people will benefit from this collaboration.

Geographic outreach of RSP-NCOC collaboration

Ref.	Province/ Region	No. of Districts	No. of LSOs / Rural UCs	Name of RSP
A	Azad Jammu & Kashmir	8	127	NRSP
B	Balochistan	11	223	NRSP, BRSP
C	Gilgit-Baltistan	9	58	AKRSP
D	Islamabad Capital Territory	1	5	NRSP
E	Khyber-Pakhtunkhwa	7	141	SRSP, NRSP, GBTI, AKRSP
F	Punjab	14	406	NRSP
G	Sindh	16	540	SRSO, NRSP, TRDP
Total		66	1,500	7 RSPs

Signing of MOUs between Provincial/District Authorities & RSPs

S. No	Province	Total No of Districts for NCOC Collaboration	No of Districts and No of MOUs Signed with RSP	No of District Level Coordination Meetings Held
1	Azad Jammu & Kashmir (AJK)	8	8 [AJK level MOU covering all 8 districts]	16
2	Balochistan	11	12 MOUs for 11 Districts *	65
3	Gilgit Baltistan (GB)	9	8	37
4	Islamabad Capital Territory (ICT)	1	1	5
5	Khyber Pakhtunkhwa (KP)	7	10 for 7 Districts **	35
6	Punjab	14	14 ***	70
7	Sindh	16	17 MOUs & 1 Letter for 16 Districts ****	103
Total		66	70 MOUs & 1 Supporting Letter for 65 Districts	331

* Duki is a recently created district from Loralai, therefore a separate MOU signed with Duki's administration to work with LSOs was included in Loralai district.

** SRSP & NRSP have signed an MOU with DC of Mardan, similarly SRSP & GBTI signed an MOU with DC Haripur, 2 MOUs signed for Chitral (Upper & Lower)

*** For Muzaffargarh, a tehsil-level MOU is signed with Assistant Commissioner - Jatoi

**** SRSO & NRSP have signed an MOU each with DCs of Badin & Thatta along-with a letter issued by district administration of Tando Allah Yar to work with NRSP on NCOC collaboration

RSP staff & community activists oriented/trained by district authorities

List of community awareness and TTQ activities conducted by community activists

256

(34% women) suspected cases identified and referred to health department *

57

(54% women) contacts traced through 9 COVID cases on request of ICT health department

637,400

(60% women) benefitted from community awareness raising sessions

1,108,150

(55% women) provided IEC materials (pamphlets, brochures, leaflets, banners, posters)

473,140

(57% women) individuals reached via mosque announcements and mobile announcements for enhancing community awareness on COVID-19 and preventive measures

13,125

individuals **(42% women)** benefitted from COVID-19 awareness campaigns via Radio and SMS

List of other activities undertaken by communities through linkages with government authorities, other development organisations

17,027

(70% women) face-masks distributed

177,994

poorest families supported to access public social protection initiatives

73,750

poorest families provided in-kind support ie essential food items, soaps, sanitizer

9,500

(29% women) benefitted from hand-washing facilities created

Scaling-up

Current **1500 UCs in 66 districts** are being done at RSP cost

RSPN has submitted a **proposal to NCOC on 8 July 2020 for scale-up in 4,757 UCs of 112 rural districts** (62 additional districts plus 50 from Phase-I collaboration in UCs not covered earlier)

Government will be able to leverage on the RSP outreach of community organisations, **reaching a total of 118 million rural people** with a total budget of PKR 7.5 billion for a one-year period

The per **district cost of scale-up will be Rs 67 million and the per UC cost will be Rs 1.6 million** for a one-year period.

*[146 Hunza-Nagar, 83 ICT, 10 Kashmore (Sindh), 5 Mardan (KP), 4 Haripur (KP), 4 Abbottabad (KP), 2 Larkana (Sindh), and 2 Duki (Balochistan)]

Case studies on community leaders' work

Case study 1: Mr Malik Amanullah, UC Shabozai, District Loralai

Training: Mr Malik Amanullah, President of LSO and General body members, received training on community awareness and tracing of COVID-19 suspected cases, arranged by district health department and BRSP.

Activities: Delivered 70 awareness sessions on COVID-19 precautionary measures and sensitised 350 individuals;

Provided ration to 25 most vulnerable households through self-help initiative;

Registered 500 families in GoPak's Ehsaas Emergency Cash Programme out of which 150 families received cash grant of PKR 12,000. Also registered the poorest households with district administration to receive ration from the government;

Community response: communities have started avoiding large gatherings. The poor households who received ration are grateful to BRSP and the GoB. As of now, not a single case of COVID-19 has been reported in his UC.

Challenges: resistance from religious leaders in the villages who are of the opinion that Corona only affects non-muslims. The LSO consists of 29 VOs and the sheer distance is making it difficult to reach every village.

Case study 2: Ms Meena, UC/LSO Fatehabad, District Badin, SRSO

Training: Ms Meena is Manager of VO Palyo Bagat, LSO Fatehabad. She received training on safeguarding measures against the spread of COVID-19 from SRSO.

Activities: Meena and other active women members of LSO, visits households and villages in the UC to spread the safeguarding messages about COVID-19. They are also started doing follow-up visits to the villages to ensure that the people are adopting precautionary measures.

Community response: Ms Meena is happy that despite being her from a minority community member, all people in the UC respect her due to her communal work using the LSO platform, and they listen to her advices about practicing precautionary measures.

Challenges: Community generally perceives that the pandemic is over, therefore some people do not take precautionary advices seriously.

Lessons, Challenges & Recommendations

- **District Health Department and activists link needs strengthening:** the Department needs to be regularly in touch with activists who are identifying suspected cases and contact tracing.
- **There is no facilitation in testing:** Testing facilities are non-existent in rural areas. Testing facility in Balochistan only in Quetta.
- Some cases are not reported in most areas as people fear they will be quarantined in hospitals and centres, by government. **With increasing awareness about home quarantine, people are less apprehensive. SOPs on home quarantine and self isolation need greater attention at this stage. This requires better link with Health Departments in districts.**
- There is a general **lack of awareness about COVID-19 in rural areas.** Once given information, people's response is overall positive and they are beginning to practice SOPs.
- **Easing/ending of lockdown** does make it more difficult for activists to convince more people to observe preventive measures. However, the government's steps for observing serious smart-lockdown on Ashora would help to contain the spread of COVID-19.
- **Many district Health Departments have no training material.** RSPs doing this at their own cost in many districts.
- **Provincial & district authorities have started realising the importance of community institutions** fostered by RSPs, for the delivery of other services eg EPI campaigns, polio campaigns, family planning, etc.
- **There is increased pressure on rural women due to unemployment of men and its impacts.** Domestic violence against women and children has increased;
- **RSPs are supporting NCOC collaboration through other, government and foreign donor funded projects eg training material, provision of soap, masks. Scale-up,** if required, can only be done through providing RSPs with resources.

Proposed Geographic Scale-Up of RSP Collaboration

Province	Implementing RSP	No of Districts	No of Union Councils	Estimated Households (Population Census 2017)	Estimated Population (Population Census 2017)
AJK	NRSP	8	68	533,483	3,392,671
Balochistan	NRSP, BRSP	23	410	1,169,321	7,550,240
GB*	AKRSP	10	97	198,444	1,538,905
ICT	NRSP	1	7	165,246	991,747
KP	NRSP, SRSP, AKRSP	20	743	2,866,568	21,579,762
Punjab	NRSP	35	2,869	10,714,102	69,625,144
Sindh	NRSP, SRSO	15	563	1,898,286	12,984,135
Grand Total	5 RSPs	112	4,757	17,545,450	117,662,603

Deputy Commissioner Islamabad
@dcislamabad

Thank you NRSP for helping us fight covid in rural areas and for creating awareness 🇵🇰🇵🇰✅✅

The Deputy Commissioner Islamabad Appreciated the Efforts of NRSP and Community Activists/Leaders to Fight Against COVID-19 in Rural Islamabad through his Official Twitter Account on 22nd August 2020

Print Media Coverage of SRSO Work with Rural Communities in the Fight with COVID-19 under Collaboration with NCOC and Local Authorities in 10 Districts of Sindh.

Men and Women Community Resource Persons (CRPs) from BRSP are Raising Awareness about Awareness about the COVID-19 and Preventive Measures through Loudspeaker Announcements and Sessions with Female Communities in 16 Union Councils of Quetta and Jaffarabad Districts.
